REPORT TO LEGISLATURE

NR 10, 15, 16 and 17, Wis. Adm. Code
Hunting, trapping and captive wildlife

Board Order No. WM-02-02
Clearinghouse Rule No. 02-018

Statement of Need

The following proposed changes are minor in nature and non-controversial:

1. Provides a definition of "explosive tips" used for archery as prohibited equipment and is currently not defined in statute or administrative code.
2. Corrects the date of the one-day youth deer hunt so it coincides with the weekend of the October Zone T hunts to limit the conflict that may occur with other hunting seasons is two Saturdays in October were affected by deer gun hunting.
3. Codifies the public notice procedure for implementation of special herd control hunts. This provision was inadvertently not included in the recent Deer 2000 rule order.
4. Eliminates the requirement that group applicants submit all applications in a single envelope. This language is currently outdated. Applicants are no longer required to submit all applications in one envelope.
5. Extends the deadline for submitting a Class A bear license fee to April 15. Bear licenses are being sold through the automated Licensing System (ALIS) and the earliest licenses can be sold is March 10. This modification will allow hunters to purchase their license after March 10 and meet the deadline.
6. Eliminates the requirement that state waterfowl and turkey stamps must be attached to one's hunting license when hunting. The language requiring the attachment of the stamp to one's license is outdated as stamp approvals are now printed on the license.
7. Clarifies legal and illegal trapping hours as requested by the Wisconsin Conservation Congress.
8. Shortens the number of days needed before the daily number of pheasant hunting permits may exceed 300 from 14 to 2, and changes the time of day at which time the number of permits may be exceeded in the Bong State Recreation Area Hunting Zone to ensure a quality hunting experience.
9. Increases the number of days that a hunter may harvest 2 birds of either sex in the Bong State Recreation Area Hunting Zone. This change will increase the daily bag limit sooner on Bong in the early part of the season, bringing it in line with the existing regular pheasant-hunting framework for daily bag limits.
10. Adds a map of the most recently created metropolitan Deer Management Unit (1M) to the list of metro deer management units.

11. Updates those wildlife refuges in Marathon and Wood counties where the hunting of deer during the gun and muzzleloader seasons is allowed.

12. Repeals language regarding commercial deer farms that was made obsolete due to statutory changes.

13. Corrects inaccurate citations pertaining to "protected and unprotected wild animals".

Modifications as a Result of Public Hearing

There were no modifications.

Appearances at the Public Hearing and Their Position

There were no appearances.

Response to Legislative Council Rules Clearinghouse Report

The recommendations were incorporated.

Final Regulatory Flexibility Analysis

The revisions pertain to rules relating to hunting, trapping, target shooting and captive wildlife. These rules are applicable to individuals sportspersons and impose no compliance or reporting requirements for small businesses, nor are any design or operational standards contained in the rule. Therefore, a final regulatory flexibility analysis is not required.

Comments

[NOTE: All citations to "Manual" in the comments below are to the Administrative Rules Procedures Manual, prepared by the Revisor of Statutes Bureau and the Legislative Council Staff, dated September 1998.]

2. Form, Style and Placement in Administrative Code

a. Since s. NR 10.001 (10) already exists, the text of SECTION 1 should be placed in a different subsection in s. NR 10.001. To place the term in alphabetical order, it should be in a new subsection between subs. (9e) and (9m).

b. Since the provisions created by Clearinghouse Rule 00-154 have been published in the Administrative Register and are now effective, it is not necessary to include the phrase "as created by clearinghouse rule order 00-154" in the treatment clauses in SECTIONS 3 and 4.

4. Adequacy of References to Related Statutes, Rules and Forms

In the analysis accompanying the rule, the lists of statutes that authorize promulgation of the rule and of the statutes that the rule interprets are unduly broad and vague. Can the department list relevant subsections or paragraphs?

5. Clarity, Grammar, Punctuation and Use of Plain Language

In s. NR 10.125 (2) (c) 2., there should be a space after "submit".
